

Leading With Heart
September 2022

What a gift of Province VIII to begin the development and exploration to roll out Leading With Heart leadership programming. The core circle began meeting after the 2021 annual meeting. Meeting monthly and then bi weekly work on the various modules began and with prompting from Barbara Schafer and Winifrid Follett we have a goal of rolling out this program in Arizona December of 2022. As it is refined and developed it is our dream that each congregation, parish, diocese will have trained conveners available to begin this leadership model.

In March of 2022 the core circle, listed below, offered a module for the United Nations Commission on the Status of Women held virtually. This module's focus was on the Care of Creation and environmental needs. The gift of meeting with women from literally around the globe strengthened our vision and raised possibilities for this ministry. We thank Girls Friendly Society for cosponsoring this event.

August of 2023 Leading With Heart plans an in person offering at the World Parliament of Religions in Chicago. With God's Grace and it is a gift to offer up another model, to be a part of a global movement in honoring women's voices while creating a safe environment in which to share. Check out the ecwprovinceviii.org to receive updates and when we can offer something that might meet your needs.

Respectfully,

Evita Krislock
